EDUCATION

BN College of Engineering and Technology, Lucknow, Uttar Pradesh

B. Tech in Computer Science and Engineering

2022 – 2026 | CGPA: 8.72

PROFILE SUMMARY

Full Stack Developer with 14 months of hands-on experience in building scalable web applications using React.js, Next.js, Node.js, Express.js, Laravel, TypeScript, PostgreSQL, MongoDB, and SQL Server. Proficient in front-end and back-end development, RESTful APIs, authentication, database management, responsive dashboards, and third-party API integrations. Passionate about building reliable applications, optimizing performance, and delivering seamless user experiences.

SKILLS SUMMARY

Languages: JavaScript, TypeScript, PHP, Java

Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, NestJS, Laravel

Databases: PostgreSQL, MongoDB, MySQL, MSSQL, Prisma

Tools: Git, GitHub, Visual Studio Code

Concepts: RESTful APIs, CRUD Operations, Authentication, JWT, RBAC, API Integration

PROFESSIONAL EXPERIENCE

Full Stack Developer | Professional Software Development

14 months of professional experience

- Worked on full-stack web application development using React.js, Next.js, TypeScript, Node.js, Express.js, and Laravel.
- Developed and integrated RESTful APIs for smooth frontend-backend communication and business workflows.
- Implemented CRUD operations, authentication, role-based access control, and responsive admin dashboards.
- Worked with PostgreSQL, MongoDB, MySQL, SQL Server, and Prisma for database-driven application features.
- Integrated third-party APIs and contributed to payment, wallet, wishlist, KYC, leaderboard, and other product workflows.

PROJECTS

Dosh Puja

Technologies Used: Next.js, TypeScript, PostgreSQL, Prisma, JWT, Razorpay

- Developed a full-stack spiritual services platform with User, Pandit, and Admin dashboards.
- Implemented dynamic puja catalogue, wishlist, pandit KYC, wallet, authentication, and payment-related workflows.
- Built responsive interfaces and integrated backend APIs with PostgreSQL and Prisma.

Rewardza Ghana

Technologies Used: React.js, Vite, Node.js, Express.js, MongoDB

- Developed a rewards and quiz platform with game sessions, point transactions, referrals, and leaderboard functionality.
- Built RESTful APIs and MongoDB aggregation workflows for ranking users and calculating leaderboard statistics.
- Implemented responsive frontend modules and connected them with backend services.

Marble Art Canada

Technologies Used: React.js, Node.js, Express.js, MSSQL

- Developed a full-stack ERP system to streamline business operations, including inventory, purchase, vendor, seller, and employee management.
- Built and integrated RESTful APIs using Node.js and Express for efficient frontend-backend communication.
- Designed a responsive React-based dashboard with reusable components, enhancing usability and scalability.
- Implemented MSSQL database support with optimized queries, CRUD functionality, and role-based access control.

Horoscope & Panchang

Technologies Used: Next.js, TypeScript, REST APIs

- Developed an astrology application integrating external APIs for horoscope, panchang, and related data.
- Built responsive API-driven interfaces and application workflows using Next.js and TypeScript.

Hospital Management System

Technologies Used: Laravel, PHP, MySQL

- Worked on a Laravel-based management application covering structured hospital workflows and administrative modules.
- Implemented database operations, forms, and application features using Laravel and MySQL.

CERTIFICATIONS & ACHIEVEMENTS

- Full Stack Web Development - Apna College (January 16, 2025).
- Fullstack PHP Developer - Ekana Technology Pvt. Ltd. (July 2025 – January 2026).
